

SS-A1B

DIMENSIONS

Weight: 3 lb / 1.36 kg

DESCRIPTION

Keep audio gear tight to your body with the (SS-A1) AUDIO SLINGER. The new Audio Slinger is a neat and trim way to carry the 2 and 3 channel mixer, supplemental battery supply and wireless microphones. Using a combination of adhesive backed Velcro and small cinch straps your mixer (or certain small recorders) stays right where you need it. An area for an NP1, IDX, Anton Bauer, and other similar sized batteries is located just below the mixer area. At the top edge is a clear vinyl window which unfolds to cover the equipment in rain, snow, or blowing dust. There's also plenty of space to accommodate wireless microphones. The shoulder strap is adjustable, nicely padded, and non-slip.

EQUIPMENT COVERED

PRODUCT BENEFITS

- Clear vinyl cover for incimate weather protection
- Comfortable, contoured design
- Keeps equipment close to your body
- Lightweight
- Space for equipment, accessories and wires
